

DESIGN A LOGO

This new Comenius project will see us as a school work closely with schools across Europe. We have been successful in a project which will see us working with schools in the various European countries about a project called '**TURNING IDEAS INTO ACTIONS**'. The countries and cities or areas we are linked with are as follows:

- **France – La Ville du Bois near Paris**
- **Italy – Grugliasco near Turin**
- **Spain – Aracena near Seville in Andalucia**
- **Austria – Wiener Neustadt near Wien**
- **France, Martinique – Fort de France**
- **UK – Braunton in Devon**
- **UK – Pilton, Barnstaple in Devon**

The project is about increasing **awareness about our European countries** we are partnered with. It will look closely at our cultures and how we are **all European citizens**. It also aims to look at **tourism** in each country for example skiing in Austria. As well as this it will focus on **trade** in these countries such as **pork in Southern Spain, bananas in Martinique, surfing in UK, and chocolate in Italy and Multicultural tourism in Paris.**

We would like you to design a logo on paper or ICT based which looks at the issues mentioned above and the project title also. Your logo will consider **all the countries** involved as well.

Success Criteria:

Does your logo consider the following:

- ✓ The **countries and regions** we are partnered with
- ✓ **European links and cultures**
- ✓ **Ideas in actions as a focus**
- ✓ **Tourism** links
- ✓ **Trade** links
- ✓ **ONE A4 SIDE OF PAPER MAXIMUM**

Think about how to include all these in your logo!
Good Luck!
