

COMENIUS PROJECT IN NORWAY – FROM 14TH TO 19TH MAY 2013

FRENCH STORYBOARD ON CITIZENSHIP

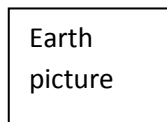

Once upon a time... there was a nice and charming 200 year old school in the south of Paris, surrounded by woods.

We feel lucky to be students there.

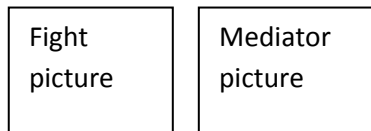

We study in a little protected area, but we are interested in what's going on in the world.

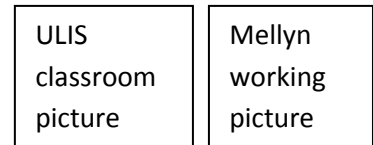

We are involved in a **lot of concrete citizen actions** such as acting as mediator.

The **mediator** is a volunteer student who acts as a balance to facilitate peaceful relations at school between pupils.

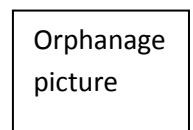

Some of us give **help to the special needs students** in their classroom

And we are proud to welcome them in our project as Comenius.

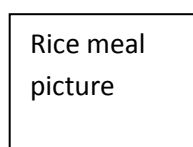

ALL DIFFERENT BUT EQUAL

Some other work on a humanitarian project with Romania. One week a year, they **share the daily- life of children in a Romanian orphanage**.

Our school is involved in this civic action in giving financial help :

once a year, instead of having the traditional lunch at the cafeteria, all the students and teachers eat a single rice meal. The money saved is given to the orphanage.

Our surroundings are beautiful, **we participate in keeping it clean.**

Students cleaning
the lake picture

Our country is so nice, keep it clean and pure.

We take advantage of learning citizenship at school. We become aware of our rights and responsibilities as citizen.

With our teachers we talk about the main values of France : **Freedom, Equality
Brotherhood.**

What does citizenship bring us?

It helps to develop self-confidence, knowledge and experience.

It gives us a voice in our school and society at large.

We feel more prepared for the challenges of our changing world.

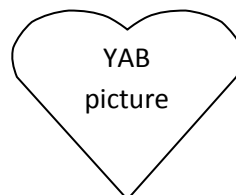

2013 EUROPEAN YEAR OF CITIZENS
